“ Wikipedia - The Pictish language offers considerable difficulties. It

is a term used for the language(s) thought to have been spoken by the Picts, the people of northern and central Scotland in the Early Middle Ages.

Scottish island names - Wikipedia - Etymology.

The earliest written references that have survived relating to the islands were made circa 77 AD by Pliny the Elder in his Natural History, where he states that there are 30 Hebudes, and makes a separate reference to Dumna, which Watson (1926) concludes is unequivocally the Outer Hebrides.
